ETC.

AWARDED 34 MEDALS

AT THE

International Exhibition of Ghent 1898

Louis Van Houtte Père

THE ROYAL NURSERIES

GHENT, BELGIUM

TO VISITORS.

In presenting this Catalogue to our numerous Friends and Patrons we take the opportunity of thanking them for past favors and trust to receive a continuance of their kind commands. Our Establishment is always open to visitors (Sundays excepted) and we cordially invite every one to visit the **LARGEST** and most **EXTENSIVE** Nursery in the world. It can be reached within **ONE** hour by Rail from Antwerp, Ostende or Brussels, and we trust no one will ever miss the opportunity of inspecting one of the largest, most varied and well grown stock of plants ever brought together.

SPECIAL RATES FOR FREIGHT.

Having made advantageous arrangements with the various Steam Ship Companies for the transmission of goods, matted Baskets or Hampers of an ordinary size, can now be sent direct from **GHENT** to all the principal ports at **SPECIAL LOW RATES**.

From the various ports to the final destinations, the re-expedition is made at the cheapest rate and by the shortest route.

All **GOODS** travel at " **OWNERS RISK**. "

Parcels Post.

Small packages weighing under 3 lbs, 7 lbs and 11 lbs can be sent by **PARCEL POST** at the rate of $1/3$, $1/8$ and $2/2$ respectively, **TO GREAT BRITAIN AND IRELAND**.

Packing.

Packing, in all instances, charged at *cost price*.

Payments.

Either by Cheque or P. O.O to be made **DIRECT TO THE FIRM**.

BULBS & FLOWERROOTS

COLLECTIONS OF BULBS

For Conservatory Decoration during winter in glasses and pots

These collections are carefully selected from choice varieties and picked bulbs.

N° I. CONTAINING 110 BULBS — 9/.

- 25 Hyacinths in 13 varieties.
- 6 White Roman Hyacinths.
- 36 Tulips in 12 varieties.

- 25 Crocus in 5 varieties
- 6 Polyanthus Narcissus in 6 varieties
- 12 Scilla sibirica.

- 100 Scilla sibirica.
- 100 Sparaxis, mixed.

HYACINTHS

Our collection of single Hyacinths was awarded the FIRST PRIZE at the

Great International Exhibition in Ghent 1898.

CHOICE NAMED SINGLE-FLOWERING

The following assortments have been formed for the convenience of those who are desirous to avoid the trouble of making their own selection. For this purpose, the finest varieties have been selected from the whole collection and great care has been taken in selecting, for each assortment, the most distinct varieties.

In ordering kindly state whether required for forcing or for open ground.

Above collection, single and double varieties, 1 of each, for 28/.

General choice collection of Single-flowering Hyacinths

The sorts followed by the letter "L" are invariably the largest bulbs, which however must not be taken as a criterion to produce better flowers than those marked "S", producing smaller sized bulbs.

N. B. 25 charged at the hundred rate, 6 at doz. rate.

In ordering, it is sufficient to indicate the numbers of the varieties required.

12 novelties extra fine : 20/0.

Iris Kämpferi.

Ixia.

IXIAS

Large flowered choice varieties

To be grown in pots in a greenhouse near the glass or in frames, with a good ventilation except during frosty weather. — They flower in June and are well adapted for forcing; 4 or 5 bulbs planted in a pot, in the same manner as Crocuses, give a fine show, and as their flowering season follows that of the Hyacinths and Tulips, they are very useful for indoor decoration.

Assortment **A.** 100 bulbs in 25 fine varieties 8 0
 — **B.** 50 — 25 — — — — 4 6
 — **C.** 100 — 10 — — — — 6 6

Fine mixture. Per 100 : 2/0 — per 1000 : 15/0.

 In ordering, it is sufficient to mention **ONLY THE NUMBERS** of the varieties required; the **GENERIC NAME** of plants must be stated as also the **NUMBER** of the Catalogue.

AZALEA MOLLIS X SINENSIS

Novelty of great merit

We have pleasure in recommending with every confidence to our numerous Customers this valuable novelty, which most likely will soon replace the ordinary *A. mollis*; these new Azaleas are more free-flowering, their bouquets of flowers much larger, and the colors much brighter and far more varied.

They are of robust habit, perfectly hardy, and in every respect superior to either of the parents.

Awarded First Prizes, Gold and Silver Medals at the principal shows of London and Manchester, as also at the International Exhibition of Dresden 1896, Hamburg 1897, and Ghent 1898.

NAMED VARIETIES :

Antonie Koster (Extra) — Dr. Reichenbach
— Emile Liebig — Franz Van der Bom — Hortulanns Witte —
Hugo Koster — N. Beets — T. I. Seidel.

Grafted plants, 3 and 4 years old, full of buds	each	4	0
— — the collection of 8 varieties		28	0
— — 2 and 3 years old with buds	each	3	0
— — the collection of 8 varieties		20	0
Antonie Koster, separate, most striking yellow	each	4	0

Azalea mollis hybr. sinensis, seedlings

Seedlings of above varieties true to character :

Bushy plants, 18 to 25 buds	each	3	0	— per doz	30	0
— — 13 to 30 buds	—	2	6	—	25	0

HARDY GHENT AZALEAS

First Prize awarded at the Great International Exhibition of Ghent 1898.

CAN BE SUPPLIED FROM SEPTEMBER TILL MARCH.

Choice single-flowered bushy plants with buds

			74 formosum (<i>Giboni</i>) (<i>Himalaya</i>), large flowering of delicate pink, sweet-scented.	2 0	

Hardy Rhododendrons

Collection composed of 60 best varieties.

Our choice, good plants in bud	per doz.	18 0	and	20 —	each	1 3	and	2 0
Purchasers choice, good plants in bud				—		1 6		2 6

For names and general collection see Cat. 275.

Fine exhibition plants covered with buds according to size 7/6 to 15/0 each.

Size and price on application for large specimens.

Rhododendron caucasicum grandiflorum.

Very dwarf and free-flowering varieties, nearly every branch bearing a truss of flowers beautiful satiny rose, when opening gradually diminishing into light pink.

They are quite hardy, well adapted for planting in clumps, and as their flowering time is earlier than that of the other hardy variety, they are also well suited for pot culture; for this purpose pot them in October, place in greenhouse and without any artificial aid, they will flower abundantly from February to April.

Good plants, full of buds. each 1 6 and 2 0
Specimens without names, very distinct, bushy . . . — 10 0 to 20 0

For names of varieties see Cat. 101.

FRUIT TREES

It is requested to state in orders if we are at liberty to replace :

1st. Such varieties as may be no longer in stock, by others of equal merit and which come into use at the same season.

2nd As far as concerns the Pears, those varieties which cannot be supplied on Quince, by sorts grafted on the Pear Stock and vice-versa.

All the prices are given for named varieties.

Names and descriptions will be found in our CATALOGUE No 272 (French edition), which will be sent on demand.

APPLES

Dwarfs, one year	each	0 6
Espaliers, 1 tier	—	1 3
Standards. 6 feet high, our selection	—	1 9

APRICOTS, NECTARINES and PEACHES

Maiden Trees, one year	0 8
Standards, very fine, our selection	1 9
Espaliers, one year	1 3

CHERRIES

Maiden Trees, one year . . each : 0/8 — Standards, very strong. . . each : 1/6.

PEARS

Grafted on the PEAR STOCK.

The PEAR STOCK only is really well suited for light, sandy or dry soils, and none other lives so long, especially on good deep soil.

	Each - s. d.
Maiden Trees, one year	0 6
Standards, strong	1 9
Pyramids, 2 years	0 3
Espaliers, 1 and 2 tiers	1 0
Standards	2 9

PEARS

Grafted on the QUINCE.

It is a well known fact the QUINCE, which flourishes best to strong or loamy soil, speedily perishes in a light sandy one, unless it is kept continually damp.

	Each—s. d.
Maiden Trees , one year	0 6
The <i>Maiden Trees</i> are the most suitable for horizontal cordons as edgings, and single cordons for exposed trellises. The immense advantage of this latter way of planting cannot be too highly estimated; as for productiveness and facility of culture it is unequalled.	
Pyramids , 2 years	0 9
Espaliers , 2 tiers, the best varieties, our selection	1 3

PLUMS
